

ASSET EXPORTING ON

Adobe Illustrator

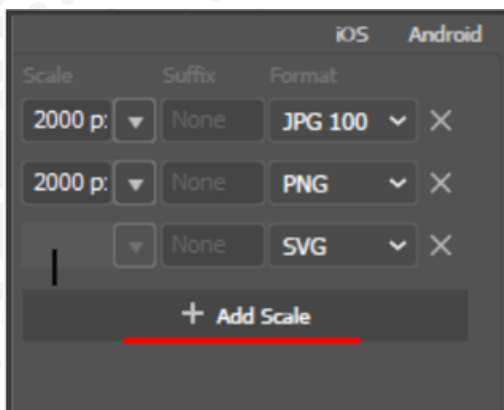

HOW TO EXPORT MULTIPLE ASSETS FROM ILLUSTRATOR

Start by selecting and dragging the items within the panel.

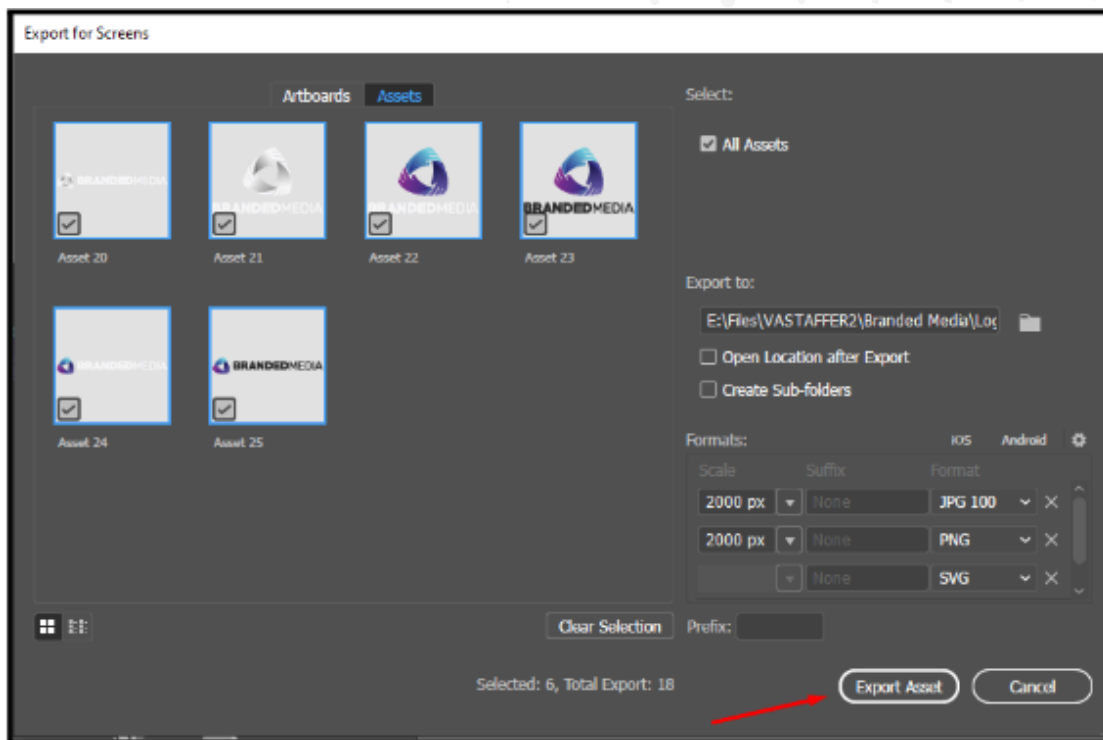

NOTE:

[You can open the Export for Screens panel by going to File > Export > Export for Screens, and you can open the Asset Export panel under Window > Asset Export.]

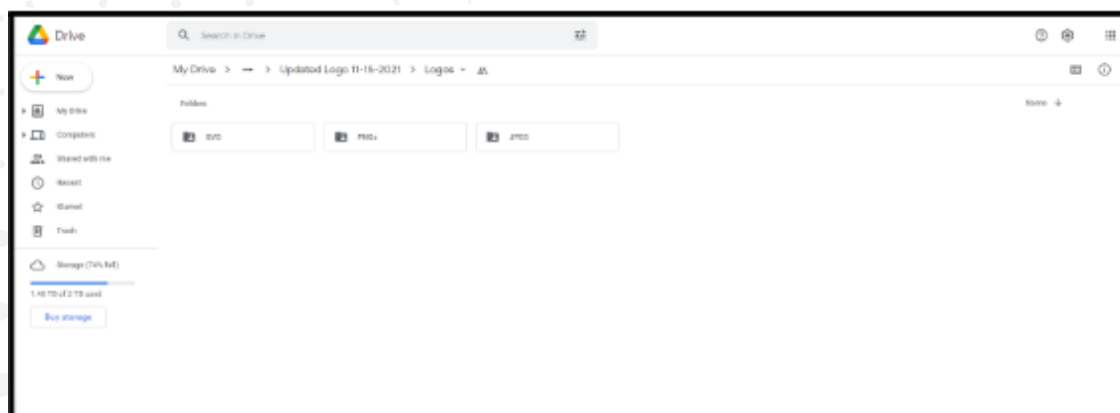

Go to Export Settings.

Go to Export Settings. Customize desired scale, suffix, and format of the items. You may choose from eight different formats.

- Once done, **press** the **-Export Asset-** button. Select a location or create a new folder where you want to save the generated files.
- **Save or upload** them in the Google Drive after exporting all assets. Keep the files as well as the folders organized accordingly.

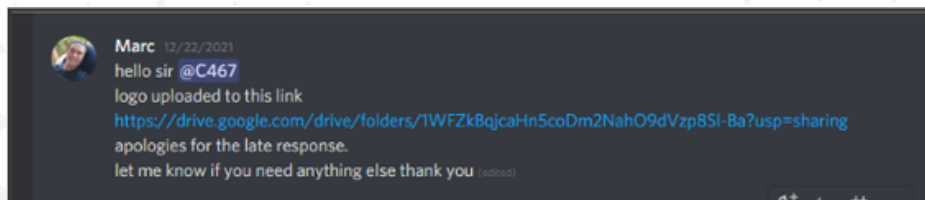

- **Comment** on your Project Management Tool or any means of team communication and inform the Web Team of the updated link on Discord Server. See examples below.
